
Junior Designer

The role:

We are looking for an enthusiastic junior designer to join our team of creative professionals. General design duties within the agency will include:

- Idea generation based on briefs supplied by the agency account management team
- Creation of print ready digital artwork files utilising Adobe CC
- Creation of digital assets to specified standards and dimensions
- Proofreading and sign off of artwork from printers proofs

The successful candidate will be able to demonstrate a competent level of design acumen. They will have a strong understanding of, and the practical skills to operate, Adobe Indesign, Illustrator and Photoshop. (Knowledge of Sketch would also be an advantage but not essential). Ideally they will have a minimum of 1 year working in a professional design environment and will have the ability to manage several projects at a time.

Who are Brown & Cooper?

We specialise in brand and digital transformation. We work with organisations across a broad range of sectors to deliver successful brand strategies and beautiful digital experiences, utilising technology and design.

Formed in 2008, we currently boast a team of 9 highly skilled professionals and enjoy a leafy suburban location in the heart of the country.

What will the successful candidate get?

A relaxed yet focussed working environment and the chance to work alongside industry experts who will be happy to share their knowledge.

A salary reflective of their experience, and the contribution they make.

How do you apply?

Please send your CV to enquiries@brownandcooper.co.uk and tell us why we should recruit you.
